

OWASP Hacker Kids

An Information Security Event for Kids @ c0c0n 2017

August 18th & 19th, 2017

OWASP Dissector

There is so much to learn from playing around with old electronics. Being able to take things apart and learn how they work is sometimes the best way to learn about 'stuff'

- Take a sneak peek at whats inside your computer
- Learn proper tool usage and safety rules
- Tear down and reassemble a computer

Come make a mess!

OWASP SolderWasp

We know you love your toys. But ever thought you can make your own? Well, our friends from Hackerwares are here to show you how

- Learn basics of soldering
- Make your own electronic Wasp
 - Soldering the legs
 - Make it buzz and move around

Build your own toy!

OWASP Programmini

The basics of coding help nurture creativity and problem solving skills, and prepare students for any future career.

- Learn some basic programming techniques
- Work with a mentor to create a simple game in Python or Scratch
- Already into programming?
 - Take the mentor's code challenge.

Anybody can code!

OWASP SafeNet

The Internet is fascinating. You can find almost anything from dancing cats to Minecraft exploits. But there are so many unknown dangers.

- Learn about OWASP's whitehat hacking
- OWASP's Top 10
- Learn about Internet safety from expert hackers

Stay safe!

OWASP DroneZone

Get the kids (and adults) glued to games on the Internet a cool new hobby they'll love - Drones.

- Learn the basics of flying drones
- Cool tips and tricks from pro's
- Try some of our kid-safe drones

Own the sky!

KID GLOVE

Protecting children in Cyberspace
